

Lumos LED illuminated mirror cabinet

The Royal Lumos LED Illuminated Mirror Cabinet sparkles with design and reflects quality made in Germany. The mirror cabinet features double sided mirror doors, the rear and side walls also have mirrored inner surfaces and the height of the glass shelves can be adjusted. The soft close hinges mean that the doors shut lightly and softly. A premium shelf inlay made of linoleum offers a scratch-free shelf surface for watches or jewellery. The colour and intensity of the high performance LEDs behind the surrounding translucent frame can be adjusted from a daylight white light, ideal for daily care, to a warm-white light, for a perfect evening makeup or an atmospheric bathing ambience.

14321 Mirror cabinet
